LONDON, March 4 — American heavy bombers bombed Berlin for the first time today, the Berlin radio said, as U. S. headquarters announced without naming the target that Flying Fortresses and Liberators had struck at objectives in the reich.

The German broadcast said the raid on the German capital was a repelition of an attack which failed yesterday. U. S. headquarters announced yesterday, however, that American bomber planes had made an earlier, fruitless sweep over Berlin.

They were hard pressed by Ger-

The RAF's Berlin campaign date has set 405 aircraft including those lost in diversionary tactics, and about 3,500 trained men.

Should the American republic bear out the German accounts of fierce air battles, it would be the first time this week German fighters have attempted vigorous defense of a target.

The American heavy bombers have conducted four major operations during this period for loss of 27 planes against comparatively feeble opposition.

A successful daylight attack

Berlin would show that the city is exposed to the same snail-like punches delivered at the old German war centers of Schweinfurt and Augsburg, where air forces have made successive overnight operations, giving the defenses no opportunity to recover from the first blow before the next fell.

The American announcement said the four-engine craft that striding into Germany for the first day were powerfully escorted by fighters.

"The whole Eighth airforce is up there today," declared William DeBlasio of Pittsburgh, one of the first crewmen to return.

Berlin's account said the American planes were heavily escorted by fighters who were met by defenses, with many of them forced to jet down their loads, claiming several shot down in the vicinity of Berlin.

The Americans approached their territory under a cover of clouds but were engaged in air combats going in and losing the targets, Berlin said.

Long-range American fighters, making the first of several attacks, saw two German bombers, high above, flying towards the Channel. They captured and the planes of the formation are now open to the daylight above.

A SPECIAL MESSAGE TO 4,287,860 RED CROSS BLOOD DONORS

You've given your blood—
can you refuse your money?

YOU HAVE given more than money—you who have given the blood from your heart.

You have earned the right to sit back now... to let other people carry the load.

But wait a minute. Have you?

Could you rest content if lack of funds prevented one single pint of that blood from reaching its goal, from saving a life?

Could you sleep easy if but one American boy—your own son, perhaps—should lack some comfort the Red Cross might have given him?

Would your conscience be clear if some prisoner of war failed to receive his weekly Red Cross food

carton containing eleven pounds of the sort of food you'd give to your boy if you still had him safe at home... meat, cheese, sugar, prunes and chocolate bars and real American cigarettes or tobacco?

You know the answer... Of course you do! There can be only one answer!

Yes, you have a right to be proud, you of the blood-donor army.

But just because you are that kind of person—you won't rest on your own now.

This month the Red Cross must ask the people of America for funds to enable it to carry on its great work another year.

This year, the need is greater than ever before. This year we serve eleven million Americans fighting men all over the world—your own sons and friends and sweethearts. You will want to give most... so give freely to your own Red Cross...

so your own sons in the service of their country.

Give to the Red Cross today. It's the only way to help.

The RED CROSS is at his side—
